

SANJANA PATIL

CSBS student at VTU Belagavi

sanjanampatil6@gmail.com | Git Hub : <https://github.com/sanjanapatil01> | Linkdin: <https://rb.gy/eryrn0>

OBJECTIVE

Enthusiastic and detail-oriented Computer Science student with knowledge in Java ,Python and Mern Stack development . Skilled in collaborating on innovative projects, demonstrated through participation in multiple hackathons. Adopt at problem solving and committed to continuous learning to enhance technical and teamwork skills.

EDUCATION

Bachelor of Engineering Computer Science

Visvesvaraya Technological University, Belagavi CGPA : 9.2

2023 -2027

PUC -PCMC

Morari Desai Residential Science Pu College , Kalli (Sirsi) Marks : 560

2021 - 2023

TECHNICAL SKILLS

- **Web Development:** HTML, CSS, Bootstrap, JavaScript, EJS, Node.js, Express.js
 - **Programming Languages:** Java, C
 - **Tools:** GitHub
 - **Database:** MongoDB
-

EXTRA -CURRICULAR ACTIVITIES

- Completed BLUESTOCK Internship as a Software Development Engineer
 - SuPrathon Hackathon in a 36-hour national-level hackathon - Built an AI-powered interview analysis web application .Selected among the top 20 teams.
 - Successful participation in the Foundation course on Green Skills and Artificial Intelligence under Skills4Future Program at EDUNET
 - Attended Byte-Verse 7.0 Hackathon - Disease Risk Prediction Web Page
 - Securing second position in CODINGO Competition
 - Attended the Sustainovate'25 Hackathon - Weast Reduction Web Page
-

RELEVANT PROJECTS & EXPERIENCE

Restaurent Website(Full stack)

- Built a full-featured restaurant website with **User login**, allowing customers to maintain their profiles, save orders, and book tables seamlessly.
- Implemented **"Add to Collection"** and table booking with responsive UI for optimal cross-device experience.

Disease Risk Prediction Web(Diabetes &CVD, Full stack)

- Developed a **doctor-focused web app** for diabetes risk prediction using **ML models**, providing probability scores and risk-level categorization.
- Implemented **secure user authentication**, responsive design, and database integration for seamless clinical use.

Task Manger Web App(Mern Stack)

- Built an interactive to-do list app with **add/delete tasks** functionality, improving daily productivity and time management
- Developed a **Mern-stack solution** using **MongoDB** for data storage and **EJS** for dynamic UI rendering.
